Features

- An extremely robust and versatile system designed to suit most storage needs.
- Shelf spacing is adjustable in 25mm increments maximising storage capacity.
- Variety of accessories include pull-out shelves, clip-in dividers, product retainer bars and security doors (refer accessories page).
- Safety infill floor and ramp options.
- The system runs on lipped channel tracks which are levelled and fixed to the floor.
- Lipped channel track is a safety feature offered with our system to provide additional protection against toppling or dislodgement during seismic activity.
- The steel bases are equipped with 100mm wheels which feature two sealed for life bearings producing whisper quiet movement that requires minimal effort (150mm HD wheel option available).
- Extensive range of Powdercoat colours which are hard wearing and easy to clean.
- Proudly designed and manufactured in New Zealand for New Zealand earthquake conditions by a fully New Zealand owned company.
- Advanced design, manufacturing technology and installation techniques have all contributed to ensure we lead the market in satisfying regulatory requirements.
- All steel components are fully recyclable.

Optional Accessories

- 1 Cover panel - half or full height options available
- 2 Pull out reference shelf
- 3 Security door
- 4 Full height divider

- 5 Half height divider
- 6 Retainer bar
- 7 Hanging rail
- 8 Drawers

Safety Infill Floor System

Manually Operated

Manually operated mobile shelving moves on tracks which are secured to the floor and is suitable for small to medium sized spaces which require maximum storage space.

Mechanically Assisted

All the features of the manually operated system but configured with a hand wheel chain drive making the mobile units very easy to move. With Mechanically assisted mobile shelving you can have up to 11 metre long bases. Each mobile unit comes complete with a safety hand wheel and locking mechanism.

Logic Plus

These electronically controlled self drive units are the perfect mix of safety and functionality. Featuring one touch operation and user friendly programming. This system also includes numerous safety and security features.

Longspan on Mobile

Hydestor's longspan shelving system is also compatible with all 3 systems, Manually Operated, Mechanically Assisted and Logic Plus. Ideal when shelving large and bulky items.
