Retail
Commercial
& Residential

HYDESTOR[®]
EXCELLENCE IN SHELVING

We can custom design to suit any space

For exceptional strength and durability, Hydestor produces an outstanding product locally for your business.

Standard Bay Dimension

Height 1350 / 1600 / 1825 / 2100mm
 Width 600 / 900 / 915mm
 Depth 225 / 300 / 375 / 450 / 600mm

Features

An extremely robust and versatile system designed to suit most retail outlets

Shelf spacing is adjustable by 25mm high increments

Variety of accessories include shelves and bins, with or without dividers, magazine displays, display panels and peg panels for prongs

Dual purpose brackets enable flat or sloping shelves for feature displays

Wall channel or freestanding gondolas fit Hydestors collective accessories

Floor drawers providing easy restocking capabilities, can be used in place of kickplates

Extensive range of scratch resistant Powdercoat colours which are hard wearing and easy to clean

Add-on components to expand your layout are always available

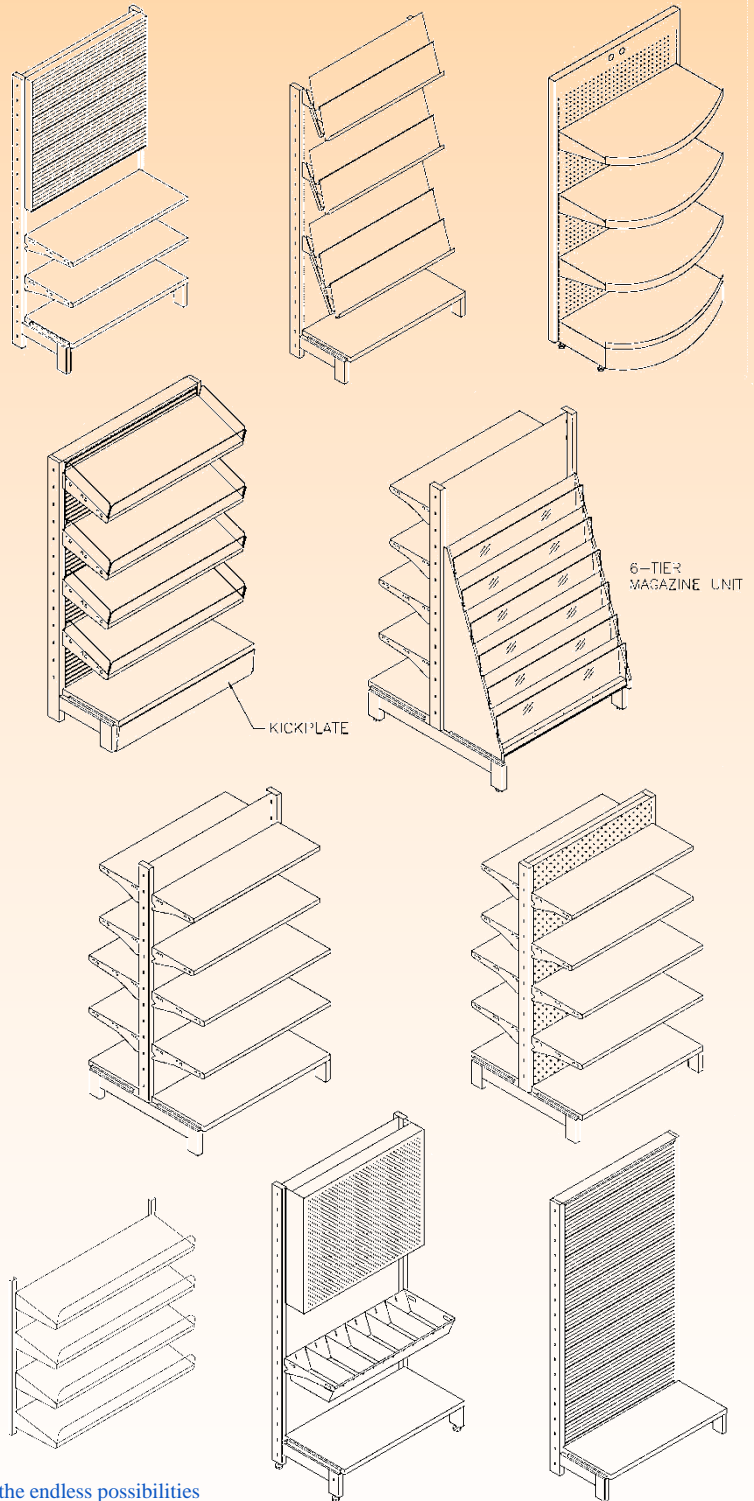

Proudly designed and manufactured in New Zealand for New Zealand earthquake conditions by a fully New Zealand owned company

Easy clip together posts and brackets, do not require nuts and bolts

Custom sizes are available

Advanced design, manufacturing technology and installation techniques have all contributed to ensure we lead the market in satisfying regulatory requirements

All steel components are fully recyclable

*drawings shown are a snapshot of the endless possibilities
